

Dear Beloved in Christ

You hear on the news how Haiti is badly hit by an earthquake. The damages are overwhelming. Most of the government Ministries and offices in Port-au-Prince collapsed. Most of the schools: high schools, primary schools, and kindergartens schools fell down. The mission house of ICA is badly damaged. The Lord through His providential power sent the same day of the earthquake a missionary team who came to build a roof on the church of Mariani, but their main primary duty was to help save the mission house that is very much damaged. They jacked it up until the engineer came to give some guidance as how to completely save it. Thank God, as they are still working on it and it will be saved. Glory to Jesus!

Yesterday I went to visit some country churches and schools: The Church in Leogane which averages 350 members, the high school, 411 students; the primary school, 283 students collapsed; the church in Carrefour Dufort which has about 250 members; the primary school, about 165 students there did also collapse; 2 people died in the church of Fauche, 3 in the church of Carrefour, and 1 in the church of Grand-Goave. A lot of people lost their homes in all the churches I can reach so far. I am sure that we have churches and schools that are damaged in other areas, but the telephones lines are not functioning to contact the other pastors. I will let you know as soon as I have more information.

Now we would like to have people send us work team to come help us rebuild those buildings so that we may have a place to keep the church people and the students. It is important to do so, for the students cannot afford to lose a year of school.

Pray that the Lord may send us humane and financial resources to do His work here.

May the Lord bless you in Jesus' Name.

Fraternally yours,

Rev. Dr. Andre J. Louis
